

Custom Artwork

1. CONSULTATION

Commissions are a fully custom service where I work with you one-on-one to bring your ideas and dreams to life! It is important to me that your piece is not only beautiful, but completely tailored to your vision. The process begins with an initial conversation via email, phone, or in-person if you are local to Waterloo Region/Toronto. We use this time to discuss your ideas, themes, style, colour palette -- everything we need to ensure your painting is fully suited to you and your space.

Here are some helpful things to keep in mind for our consultation:

1. Painting medium (oil or watercolour)
2. Orientation (horizontal, vertical or square)
3. Titles or images of my work that are in the style and/or colours you are looking for
4. Any specific images, paint colours, fabric swatches you would like me to take inspiration from
5. Room/furniture measurements (so we can specify the ideal size for your piece)
6. Your location (so I can calculate shipping and delivery options for you)

Once we have determined your needs I will send over an invoice for your approval. I require a 50% deposit before beginning any design work.

2. DESIGN (2-8 WEEKS)

Watercolour paintings are completed between 2-4 weeks. Oil paintings are completed within 6-8 weeks (including drying time). Please keep in mind this time frame when ordering an oil painting as it is important for the paint to fully cure prior to shipping. I will send photos of your piece upon completion for you to approve. It is important to me that you love your piece so I will happily make any revisions to the painting during this stage. Once approved, I will send you an invoice for the remaining balance.

3. DELIVERY (1-4 WEEKS depending on your location)

Paintings are wired for hanging and packaged securely to ensure a safe journey.

I ship all artwork via Canada Post with tracking and insurance. If you are local to Waterloo Region or Toronto your piece will be delivered to you free of charge.

Looking forward to working with you!

Price List*
